go throughout the day to pray quietly or join in a service. Please
check their notice board for specific Unity services in January.**

Church heating– St. Annes.

**The heating is woefully inadequate– the current system is unable
to deliver sufficient heat to warm the building and at best provides
only a maintenance heat. If a building isn't warm people will not
stay or come. We need to commission a heating survey from a
consultancy to see what options are possible. As a city centre
church we need to think big here as we look to the future and not
become known as the church that time forgot–.**
